

Loraas Disposal Services in cooperation with Crown Shred and Recycling is introducing a new recycling program for all Loraas customers.

## **SINGLE STREAM RECYCLING**

Single-stream recycling is a system in which all recycle materials - fiber, plastics, tin and aluminum - are placed, unsorted, in one container and sorted at the processing plant.

For customers who currently have a blue recycle container with Loraas Disposal, the additional recycle materials go in that container starting August 2012.

Here is a list of materials that can go into the **BLUE** recycle container.

**Cardboard, Boxboard, Office Paper, Newsprint, Junk Mail, Magazines and Catalogues**

**Plastic Containers, Milk Cartons & Plastic Milk Jugs, Shrink Wrap & Plastic Bags** - Plastics numbered 1 through 7

NO oil containers or chemical jugs

*(Please check the bottom of containers for this symbol and number)*

**Tin and Aluminum Cans**

*(cans must be clean, with or without labels – no steel or car parts)*

**Loraas Disposal's sales team will find the size of container and number of pickup days that will best suit your needs.**

***Thank you for choosing Loraas Disposal Services Ltd  
Saskatchewan owned and operated since 1965***
